SPECIAL ACTIVITY: Family Fun Night

The New Year

The **purpose** of this **celebration black history month** is to celebrate the accomplishments of **black** people throughout **history** — from Rosa Parks who was brave enough to stand up for equality to the first **black** president.

Every week, the children will learn about a black leader:

Rosa Parks, Harriet Tubman, Frederick Douglas, Barack Obama

We will have a black history month exhibit the last week in February.

Acts of Kindness/ Valentines' Day

We will also teach the children on **acts of Kindness**. Kindness is something children learn by feeling. **It** is a key ingredient that helps children feel good. Having a positive outlook allows them *greater attentions spans* and *enables more creative thinking* to produce better results at school. We will read a book to the children about feelings

Playful Pets:

We will teach the children about how people keep animals as **pets** for company. **Pets** are fun to spend time with, but taking **care** of them is also hard work. **Pets** need **care** and attention to keep them healthy, happy, and safe. They need healthy food; clean, fresh water; and a comfortable place to sleep.

Animals are an **important** part of our lives. Our pets teach us what it is to be unconditionally loved, and how to love something that we can never communicate with. ... Be **kind to animals**. It's good for your soul; your heart may grow a few sizes, but you will not regret that you helped a creature who was in need.
